

RECOGNISED AS LEADERS IN  
STANDBY POWER SOLUTIONS

## REACH Declaration

The Registration, Evaluation, Authorisation and Restriction of Chemicals regulation (REACH) is European Union Regulation (EC) 1907/2006 and came into effect on 1<sup>st</sup> June 2007. It is intended to protect human health and the environment by restricting and controlling the use of Substances of Very High Concern (SVHC).

PB Design does not manufacture any substances or preparations and is therefore classified as a “downstream” user. Consequently, we have investigated selected articles used within our equipment and found that none of them contain any SVHC’s. As a result, we can confirm our compliance with the REACH regulation.

Please contact us if you require any further information.

A handwritten signature in black ink, appearing to read 'Tim Broomfield'.
